Our Story

Technology, Quality, and Results

AW3[®]

AW3 was founded by a small team of experts who each contributed their unique expertise, the company has since become a globally recognised brand that places great emphasis on achieving results, safety, and ensuring customer satisfaction. With nearly three decades of experience, we have been a leader in this market and continue to grow rapidly with hundreds of staff members and state-of-the-art centres located in over four continents.

Performance is defined by durability

Our Mission

Design, Research, and Development

Our brand's mission is to revolutionise the beauty industry by creating cutting-edge equipment that leads the way in design and computer science.

Our focus is on developing user-friendly, aesthetically-pleasing equipment that utilises advanced technology to deliver faster, more comfortable treatments with superior results.

At Allwhite Laser, we are dedicated to acquiring the latest cutting-edge technology and implementing innovative manufacturing processes for the AW3 machines.

With over 25+ years of experience, we are the industry experts! Our UK-based factory serves as the centre for research, design, and development, where we integrate core components from industry-leading brands like Hereaus and Coherent into our equipment. This collaboration ensures that our machines are built to the highest standards of quality, durability, and performance. Our ultimate goal is to have an AW3 device in every high street corner across the globe, and we're confident that we can achieve this with your support.

KING OF LASERS® Ourselves

MANUFACTURING

At AW3, we're ISO 13485:2016 certified and lead the industry in quality management. Our advanced facility sets a benchmark for best practices, and we're continuously innovating to enhance our products. Our commitment to innovation reduces costs, improves efficiency, and delivers even more dependable products to our customers.

FACILITIES

AW3, Europe's top equipment manufacturer, engineers products to superior scientific standards at a state-of-the-art 15,000-square-foot facility. We prioritise exceptional customer service and marketing support, empowering clients to succeed in their business. Visit us to discover how our products have helped thousands of clinics worldwide achieve the greatest results.

TRAINING

AW3 understands that a great system isn't enough to achieve optimal results. We prioritize the importance of training and technique, utilizing our extensive experience in clinical trials, scientific research, and development to training members worldwide. Our diverse training options, including practical sessions and video tutorials, enable us to share our knowledge and expertise with a broad audience.

TRAINING AND CERTIFICATION

At our core, we believe that achieving maximum results isn't just about having a great system, but also about the training and technique that goes into using it. That's why we've dedicated years to clinical trials, scientific research, and development, all in order to share our experience with our members.

From colleges to hospitals, dentists to doctors, and even aesthetic salons, we're proud to train and qualify professionals across industries to use laser equipment and products with confidence. And we don't just stop at imparting knowledge – we aim to make training simple and enjoyable, cutting out the noise to focus on what really matters for your business success.

We've trained thousands and treated millions of happy customers!

AW3®

CUSTOMER SUPPORT

Engineering is in our blood and customer support is in our DNA. At AllWhite Laser, we have an incredible team of experts who are dedicated to providing our customers with exceptional support. We believe that our customer support sets us apart and is key to our success. We take pride in delivering personalized attention and service to each individual, and we're always here to help with any questions or concerns you may have. Our commitment to outstanding customer support is one of the many things that makes AllWhite Laser great.

Play Video

AllWhiteLaser is transforming the laser industry with an innovative logistics strategy and unwavering commitment to quality. Raising the bar with streamlined processes and efficient delivery of high-quality laser systems, and as a result, gaining recognition as a leader in the industry.

An impressive stock performance is a testament to our success and the high standards we have set. AllWhiteLaser is not just another laser company, but rather a game-changer in the industry, setting new standards for excellence and innovation.

Our forward-thinking approach to logistics is just one example of how AllWhiteLaser is challenging traditional ways of doing things and paving the way for a brighter future in the laser industry.

Stock & Logistics

In today's digital age, customers rely heavily on the internet to research their options for bringing clients into their clinics. As a result, marketing and content support services have become increasingly crucial for businesses seeking to establish themselves as leaders in their fields.

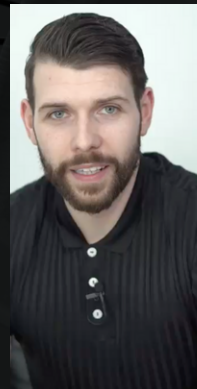

At AW3, our marketing support services prioritise the creation of high-quality content that addresses customers' needs and concerns while establishing credibility. By offering informative and engaging content, we can effectively reach potential clients who are actively searching for treatment and help them make informed decisions.

Through our approach, we can showcase our clients' expertise and industry knowledge, increasing the likelihood that prospects will engage with them directly. Our goal is to provide valuable and relevant content throughout the customer journey, ultimately converting prospects into loyal customers.

We are better at marketing your business

Not just any old marketing! This is AW3!

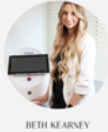

DAANISH ANSAR
CEO AND FOUNDER

★★★★★

I went into this industry because I wanted to help other men like myself feel comfortable in their own hair & skin. AW3 are amazing in all aspects, from their powerful brand, reliability and top of the range laser hair removal machines. Their customer support is fantastic and I am very glad that I am part of the King of Lasers.

Laser Men

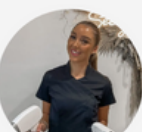

BETH KEARNEY
CEO AND FOUNDER

★★★★★

Since embarking on my laser hair removal business I have been nothing but impressed and reassured with the Allwhite Laser machine and the company behind it. My clients are continuously extremely happy with the results after their visit to me and impressed with the high quality service and treatment they experience. It's reassuring as a business owner to know that you have invested properly in an exceptional piece of machinery that will only enhance not only your business but you as a therapist.

B Beautiful

ELLIE TOYN
CEO AND FOUNDER

★★★★★

I am able to consistently grow my business based on solid and real results due to AW3's technology. I can't recommend the machines and company enough.

AW3

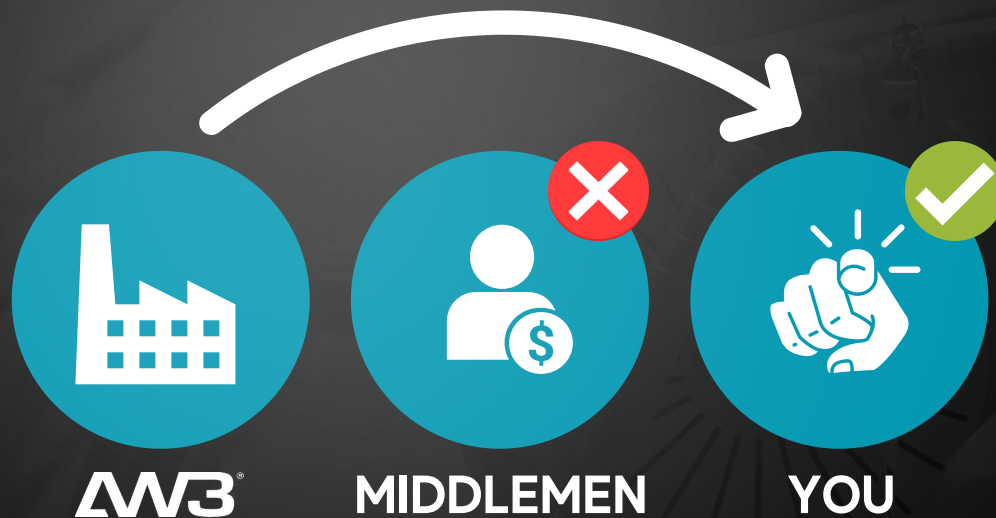

THE HIGHEST **ROI** IN THE GAME

**EVERYONE PROMISES
HIGH RETURNS ON
INVESTMENT (ROI).
WE DON'T MAKE EMPTY
PROMISES AS OUR
ACTIONS SPEAK LOUDER
THAN WORDS!**

- IT TAKES AS LITTLE AS 1 TREATMENT PER MONTH TO PAY FOR YOUR INVESTMENT*
- DELIVER BETTER RETURNS FOR OUR MEMBERS VIA INDUSTRY TRENDS.
- RE-INVEST BACK INTO OUR MEMBER'S BUSINESSES WITH CAPITAL FUNDING.
- CONSISTENTLY SCALE THE AW3 BRANDING IN ANY MARKET CONDITION.

*It takes as little as 1 treatment per month to pay for your investment. Based on an average, depending on the treatment type, repayment plan, location and the machine type.

NO MIDDLEMAN COST EFFECTIVE GREATER CONTROL HIGHER RETURNS

1. **Better prices:** AW3 can eliminate the markups and fees charged by middlemen or distributors, resulting in better prices for customers.
2. **Higher quality products:** Without middlemen, AW3 has more control over the production process, which can lead to higher quality products.
3. **Better customer service:** AW3 selling directly to customers can provide better customer service, including faster response times and more personalised attention.
4. **Blame game:** If there are any misconduct, distributors or middlemen blame the manufacturer and pass on the liability instead of themselves.
5. **Improved transparency:** With direct sales, customers can have more transparency into AW3's process, including materials used, manufacturing standards, and quality control processes.

Cutting out the middleman will result in better prices, higher quality products, better customer service, access to exclusive products/offers, and improved transparency.

Schnelle™ *Ultra*

With the latest Crystal Freeze® innovation, the Schnelle system is designed to numb the treatment area, making it a low-pain experience for your clients compared to other lasers. The advanced technology includes a super fast repetition rate ensuring that it is less likely burn the treated clients, and with our extensive training and expertise, technicians can rest assured that treated clients will achieve excellent results in fewer treatment sessions than with any other technology. The system is specialised purely for hair removal and is one of the longest-standing laser diode machines on the market. Its simple mobility, great user experience, and low maintenance have made it a reliable and successful choice for countless practitioners.

At AW3, we continue to refine and improve our system on a yearly basis to stay ahead of the curve in this industry. We know that clinical experience and volume sales are critical to ironing out all the trial and errors and obtaining the best results, something that less popular brands are unable to achieve.

Our Laser is known as "Schnelle", which means "Fast" in German, and for a good reason. With a 10HZ super flashing speed, our system is one of the fastest laser machines in the world, achieving shorter treatment times for technicians. Our device is registered, copyrighted, and trademarked verified, so you can trust that it's not a poor imitation like similar-looking machines.

*Machine specifications and design may change at any time to improve performance.

LESS TREATMENT TIME, MORE PLAYING TIME!

**UNBEATABLE 10HZ SUPER-FAST
SPEED MEANS SIGNIFICANTLY
SHORTER TREATMENT TIME - THE
FASTEST AVAILABLE IN THE
INDUSTRY.**

TECHNO™

Tap Water

Distilled Water

The Flow Tech system is crucial for proper water flow and filtration within the laser system, just like blood circulation is vital to the human body. Poor water circulation can lead to impurities and harm performance and other components. The Flow Tech system removes harmful particles and circulates pure water, ensuring optimal performance and stability, extending the machine's lifespan, reducing maintenance and repairs, and leading to more precise treatment results for clients. It is a critical component of the AW3 laser system.

MUCH BETTER RESULTS WITH OPTIMUM ENERGY

Technologies

Behind the system

OE OPTIMUM
30 ENERGY™

Other Lasers

Play Video

The Optimum Energy™ technology by Allwhite Laser revolutionises the field of laser hair removal with its precise delivery of micro packets of light energy, avoiding energy scattering and overloading. This leads to more efficient and targeted energy delivery, resulting in more precise and consistent results, reducing the risk of side effects and unwanted scattered light.

PULSE™

The AW3 Intelligent Pulse technology streamlines the treatment process for technicians, automating technical aspects to allow them to concentrate on delivering high-quality treatments. The technology increases efficiency and productivity, with intuitive software making it easy for technicians to use, even with limited technical experience.

AW3 is known for its innovative technology, with the Amplified Pulse™ technology being a standout example. Developed by AW3 engineers, this highly advanced and precise laser system offers technicians unparalleled control and customisation options, setting a new standard in the industry and making it a valuable addition to any clinic or salon.
